UM PHYSICS DEPARTMENT  
KICKS OFF SHALLENBERGER  
SCHOLARSHIP CAMPAIGN

MISSOULA - -

Over 50 years have passed since the first bachelor's degree in physics was granted at the University of Montana.

Dr. Garvin D. Shallenberger witnessed the passage of most of those years as professor and department chairman from 1923-60. In recognition of his long years of service to the Department of Physics and Astronomy and the University, a scholarship is being formed in his name.

Dr. Shallenberger, 80, a native of Muldrow, Okla., was department chairman from 1923-54 and professor from 1954-60. He was named professor emeritus in 1960. He now lives at 2712 Spurgin Road, Missoula.

The current department chairman, Dr. Mark J. Jakobson, is asking department alumni and former physics students for funds to back the scholarship. Dr. Jakobson took his first course in physics from Dr. Shallenberger and said he thus has a "special interest" in the fund-raising campaign.
